Reaching heights beyond boardrooms

With an intention to impart quality management education, nurture talent, and groom them to become future thought leaders and change masters, MDI Murshidabad was inaugurated on 24th August 2014 by Shri Pranab Mukherjee, the then Hon'ble President of India. The vision behind extending the MDI brand was simple; we did not intend to be a part of a herd rather we desired to raise lions of the corporate jungle.

MDIM inculcates the idea of becoming an epitome of courage, integrity, and foresightedness among its students. The batch of 2018-20 is a perfect blend of grit, trailblazing and intuitiveness. We encourage them to think beyond job positions and status and undertake every task with zeal. With the valediction of the current batch, MDIM intends to provide not only leaders but also visionaries who will contribute to society.

“
If you are working on something exciting, that you really care about, you don't have to be pushed. The vision pulls you.”

- Steve Jobs

Greetings from MDI Murshidabad!

I have seen the Management Development Institute (MDI), Murshidabad grow from being a seedling to becoming the sprawling tree that it is now. As a result, I am filled with immense pride when I express in complete cognizance of the fact that it wouldn't have been possible without the dedication shown by our students, members of faculty, and members of staff at our beloved institution.

It is with elation that I say that we have been able to achieve excellence in various spheres in a short span of time, on the back of our concerted and relentless efforts. Of the many laurels we have had the honour of receiving in the past year, two recognitions presently merit recounting. Not only were we recognized as the best emerging B-school in the country by NHRDN, but CRISIL has also graded us as A*(A Star) at National level and A*** (A tripple star) at State level. We also had the privilege of being instituted as one of the members of the prestigious Association of Management Development Institutions in South Asia (AMDISA). In light of these achievements, I am confident that we will be able to add more priceless gems to our coronet in the years to come.

Further, the Summer Placements of the PGPM Batch 2018-20 turned out to be a magnificent affair, having been completed in record time. I wish the Placement Committee and the students all the success in the world as they enter the Final Placements season

I would like to extend immense gratitude to our corporate partners who bestow their trust upon us and have continued to be associated with us through all these years.

Last but not least, I take this opportunity to introduce you to the PGPM Batch 2019-21 who are primed to venture into the corporate world. We are confident that our students will be the most sought after by the top companies globally. As leaders they will certainly leave a mark in their professional and personal capacities. Their radiance shall glow like the guiding beacon for the rest of the world to follow.

In conclusion, allow me to extend a cordial invitation to your esteemed organisation to visit the institute and gauge the infinite zeal and limitless potential that our budding professionals possess. I assert with utmost confidence that this band of emerging professionals, who comprise some of the finest young minds in the country, will add great value to your organization.

SOCIAL RESPONSIBILITIES

“ Never give up. Today is bad, tomorrow is worse but the day after tomorrow will be sunshine. ”

~ Jack Ma

Education Drive

Prayas, the social responsibility cell of MDI Murshidabad organised an education drive in Kulori for villagers with weekly education classes for students. Every human being needs to have a side which leans towards social responsibility. Fortunately our CSR team got a wonderful opportunity to act as a stimulus to bring out this side of our students. It was a social welfare activity in the form of Education Awareness Campaign arranged by our mentor, Dr. Niharikan Gaan in collaboration with NGO Charsha which is primarily into rural primary School Ambidexterity Mission located at Chandni Chaukhat, Jangipur, West Bengal. Our activity began with addressing and demonstrating the benefits of education to the parents and guardians of the children. We even made them aware of all the scholarship schemes and educational loan plans that can be availed. We were filled with pity and grief when we learnt how the children lived the day. All they could do in their leisure was to make bidis to add revenue to their family occupation which seems to be minuscule and something which the children should not be exposed to at such an early stage of their lives. In reality, the situation looks worse with education being considered secondary. They usually study in their leisure hours. We tried our best to instil some hope among parents to let their children study beyond matriculation as opposed to their current trend. Convincing them was challenging but the best part was achieved when we interacted with the students. We were awestruck to find those little gems, reciting beautiful poems. To our delight, the poems were not just in Bengali, but in Hindi and English as well. We gave each one of them chocolates and biscuits as a token of encouragement. We lifted up their spirits so that they start considering education to be the primary thing in their lives and to take the first step towards a bright future.

PRAYAS – CORPORATE SOCIAL RESPONSIBILITY CLUB

Murshidabad district being one of the least developed districts in West Bengal state is surrounded with innumerable social issues. Predominant social issues are poverty, illiteracy, high crude birth rate, lack of health and hygiene facilities. In such state of bleak social condition, it becomes inevitable for any organization to work towards upliftment of the society through certain philanthropic activities. The students at MDI Murshidabad have taken a crusade in eradicating such issues through the socially responsible (SR) committee named as 'Prayas'. It is primarily student driven. It has taken small measures till date by collaborating with local NGOs in conducting various knowledge awareness campaigns in neighbouring villages of Raghunathganj.

The club has taken initiative to design personality development module for the outsourced workers of the campus like canteen staff, security guards, gardeners, and house-keeping staff. Various personality development sessions were organized in the campus which aimed at providing them with the basic knowledge of English and soft skills. The committee has even organized blood donation

camps, in which the students participated with great zeal and enthusiasm. It made posters depicting eco-friendly surroundings of the campus which will instil a sense of responsibility in the students about saving electricity and keeping the campus clean and green. The club also organized social awareness campaigns in nearby villages which were aimed at spreading awareness among villagers about new government schemes like BETI BACHAO BETI PADHAO, PRADHAN MANTRI KAUSHAL VIKAS YOJNA, PRADHAN MANTRI SU-RAKSHA BIMA YOJNA and many other social schemes. The committee also addressed the issue of child labour in the nearby villages as it is a major problem in this area. Through our campaigns, we have lifted up the spirits of workers of the campus and villagers and will continue to do so in future.

BLOOD DONATION CAMP

The Social Responsibility committee, Prayas in partnership with Jangipur Super Specialty Hospital sponsored by HDFC bank was successful in organizing another biannual Blood donation camp at MDI, Murshidabad. The motto was clear, donate today and save someone tomorrow. 70 donors including students, faculty and staff members took part actively in this noble cause. From the obligatory cleanliness to post donation nutrition, Prayas took care of everything in quite an efficient manner. We would like to thank the hospital members for their constant care and support toward the students and everyone who came in to donate. A big thank to HDFC bank also for their sponsorship which made the event possible.

PLACEMENTS 2019

Pre-Placement Talks (PPT)

PPTs provide a platform to facilitate interaction between students and companies, so that both can find the best match according to their aspirations and requirements. For effective communication, the latest technical equipment such as audio visual facilities, LCD projectors, TV/VCR and any other special equipment can be made available on campus on request. The campus also has video conferencing facility. The dates for the PPTs can be obtained from the Placement Office. We value any company taking some time out to get to know our students better, and giving an opportunity to our students to know more about the company in turn.

PPOs

A pre-placement offer or PPO, post the summer internship, is a much cherished job offer before final placements. An exposure of 8 weeks gives both the organization and the student an opportunity to gauge each other's compatibility. The firms can communicate to the Institute, their decision to offer the PPOs before the Placement Week commences. However, in the event that the company does not have any internal rules governing this process, the students' decision will be communicated to the company either after the Placement Week is over or at its assigned time slot during the Placement Week.

Lateral And Fresher recruitment

The Institute does not have separate lateral and fresher recruitment processes. Hence, both the processes commence simultaneously and run during the placement week of the Institute.

CV

The institute follows a standard format for all the students applying to various companies. A company can place a request for the CV's in the Institute's format or any other specific format, in hard or soft copies as desired.
