Ahmedabad**

ABOUT NTPC SCHOOL OF BUSINESS

NTPC Limited, a Maharatna company of Government of India, is India's largest energy conglomerate with installed capacity 51,383 MW. NTPC Limited is instrumental in promoting NTPC Education and Research society (NEARS). NTPC School of Business (NSB) under the aegis of NEARS has two AICTE approved programmes namely, fifteen months 'Post Graduate Diploma in Management' (Executive) and the two years 'Post Graduate Diploma in Management' (Energy Management). These courses are designed to enrich management learning and practice at all levels of decision making in the area of energy management. The focus on energy management consolidates to deliver knowledge centered and value added academic and research enrichment services for sustainable development of Indian economy.

MOU WITH INDIAN INSTITUTE OF MANAGEMENT AHMEDABAD (IIMA)

IIMA and NTPC School of Business signed a Memorandum of Understanding (MoU) in 2018 in order to foster future energy managers in various energy fields. After this, the programme was designed by experienced professors of IIMA to include a highly interactive approach towards learning.

ABOUT PGDM (Energy Management)

PGDM (Energy Management) programme includes core courses, elective courses and three months of internship. The programme is designed by experienced professors of IIMA which has highly interactive approach towards learning. The programme equips students with the required conceptual and interpersonal skills and social purpose for managerial decision making and implementation. It also provides analytical knowledge and creates awareness and understanding of environmental forces impinging on managerial behaviour. It is best suited to candidates who wish to pursue their career in the energy domain.

WHY PGDM IN ENERGY MANAGEMENT?

Worldwide energy investment totalled USD 1.8 trillion in 2017 or about 10% of the USA's gross economic output. PGDM is a structured study of energy management that helps professionals gain experience in making key decisions on the business aspects of energy to optimize on costs and outcomes in their respective industries. Companies of all types seek energy managers who can help optimize energy utilization. These energy professionals work closely with production managers and environmental managers to ensure proper energy management.

KEY BENEFITS OF PGDM (Energy Management)

- The programme encourages discussion beyond the classroom to prepare students for critical analysis and application of skills to real business situations.
- Advantages of learning theoretical and practical aspects of management from professors of IIMA and industry experts.
- Students learn to combine the fundamentals of management with domain / industry expertise.
- Practical insights through internship and field visits.

COURSE CURRICULUM

The course follows a trimester system with experienced faculty members from IIM Ahmedabad, NTPC School of Business and visiting faculty members from various reputed institutions. The curriculum is designed around the case study method where students get a chance to enhance their knowledge through real time industrial issues. Students get practical insights during the tenure through internships and field visits. It consists of orientation programme, compulsory courses, elective courses and internship.

FACULTY

IIMA is hand holding NSB in its pursuit towards excellence. In the process, a significant part of the curriculum is being delivered by professors from IIMA and the remaining by NSB faculty members who possess a blend of contemporary industry exposure as well as academic excellence.

PEDAGOGY

Combination of lectures, case studies, group projects, discussions, live research projects, simulation and management games. Elective courses are offered based on the interests, area of specialization and industry requirements.

INFRASTRUCTURE

- **Information Technology:** NSB provides simulator centre, computer labs, seminar halls, well equipped lecture rooms and discussion forums to promote effective learning.
- **Modern Library:** It offers access to a wide range of both printed and electronic sources with an increasing emphasis being placed upon electronic delivery of information to users like e-books/ e-journals, PROQUEST, DELNET etc.
- **Hostel:** The hostel rooms are provided with Wi-Fi, LAN connection to facilitate extended study hours for the students. The rooms are air-conditioned and are fully furnished with modern amenities.

EVENTS

- **Vyaakhya:**
An interactive guest lecture series on different industry related topics to boost the confidence of aspirants.
- **Greentrepreneurs:**
A townhall lecture series wherein we invite first generation entrepreneurs to deliberate on corporate issues.
- **Innovation Challenge:**
A platform that allows the students to showcase their innovative business ideas and provides a forum for healthy discussions.
