5 Centuries of History

Genesis

500

It was 500 years ago that a boy named Inigo was born in the Basque country of Northern Spain.

1521

Wounded in the battle of Pampalona in 1521 against the French, he resumed to his couch, enduring much pain and boredom. While convalescing he realized the folly of serving an earthly king and decided to serve the heavenly King.

1540

A new religious order Society of Jesus came into being in the Catholic Church, one that would spread throughout the world.

1955

Over the years many of them would take Francis Xavier as their patron as XISS did in 1955.

500

It was 500 years ago when a boy named Inigo was born in the Basque country of Northern Spain in 1491. Living in a small castle because of his noble birth, the boy grew up to be well educated, with fondness for clothes, beautiful ladies and the unflinching sounds of battle. He thought of himself as a great soldier, and he was indeed one. Although he thought himself to be great lover, it seems that God had different plans for Inigo of Loyola.

1521

While Jesuits were opening schools and colleges across Europe (hence nicknamed as the schoolmasters of Europe) Francis Xavier, a close friend of Ignatius came to Goa in 1542 and started many schools. Then he went to many places in South India.

1523

Gradually by God's grace he was transformed and set his steps on the rocky path that would lead him to Salamanca, Paris, Venice, Jerusalem and Rome.

1540

By this time he was known as Ignatius of Loyola who received from Pope Julius III, a decree proclaiming that he and his little group of nine followers would be known as the "Society of Jesus" in the year 1540 in Rome.

A new religious order came into being in the Catholic Church, one that would spread throughout the world and have profound effects on many lives.

1542

While Jesuits were opening schools and colleges across Europe (hence nicknamed as the schoolmasters of Europe) Francis Xavier, a close friend of Ignatius came to Goa in 1542 and started many schools. Then he went to many places in South India.

1955

Over the years many of them would take Francis Xavier as their patron because he, like Ignatius also became a Saint. Today one wonders, how many thousands of Indians have been educated at such prestigious institutions as Xavier's - Delhi, Mumbai, Kolkata, Jaipur, Patna, Ranchi, Hazaribagh, etc. It was as a continuation of the tradition of such hallowed temples of education that Xavier Institute of Social Service was established in 1955 at St. Xavier's College, Ranchi. Initiated with a humble objective of training young men and women in Personnel Management, Industrial Relations and Rural Development & Social Welfare, XISS has trodden a long path of glory and success over the last 60 years.

1973

In 1973, the Institute was registered as a separate educational society under the Societies Registration Act, 1960.

1978

In 1978, it moved to its present site and over the years has grown in terms of both capacity as well as quality.

2000

The Society of Jesus entered the new millennium with greater commitment to justice and sustainable development of resources.

2007

The Society of Jesus renewed its thrust to management education.

2014

Since the bi-centenary celebration of its restoration the Society of Jesus in 2014, it is ever more committed to justice and human development through management education today.

1973

1978

2007

2019

1973 In 1973, the Institute was registered as a separate educational society under the Societies Registration Act, 1960. Since then it has been recognized as one of the most outstanding management schools in India.

1978 In 1978, it moved to its present site and over the years has grown in terms of both capacity and quality. From an extension center of St. Xavier's College, Ranchi, to becoming one of the India's most reputed educational institutions, the journey for XISS has all along been guided by the needs and aspirations of the region in which it operates. Education at XISS means sensitizing the students with appropriate values, attitudes and critical thinking tools that set them apart as 'Professionals with a Difference'. What started 61 years ago as a center of social service founded by the Society of Jesus, has today grown into a reputed business school.

2007 The uniqueness of the professional education at XISS is that it promotes excellence in academic as well as in grassroots experience through rural camps & field works. This makes the students fit in any industry or organisation at the local, national & international levels.

2019 Today it has developed its own distinct identity to become one of the premier management schools of India in the fields of Human Resource Management, Rural Management, Information Technology, Finance and Marketing Management.

Nurturing Professionals, with a Difference

Social Service Field Work

During their first year, teams of students are formed which are then assigned to various organisations involved in rigorous Social Work. These organisations work to brighten up the lives of the underprivileged children, including the physically challenged, the mentally challenged and the deprived village folk. Through social service field work we seek to :

- * Understand human values and social doctrine of society and culture
- * Understand and exercise the social responsibility alongside professional careers
- * Augment the momentum of social work and human skills

Industrial Tours and Rural Camps

The Industrial Tours are imperative to the curriculum at XISS. It is instrumental in bridging the gap between the class room teaching and the real business world. It serves the idea that students must know practical side of everything. Not only these camps provide academic relevance, but also expose students to different places letting them interact with industries directly.

Rural Camps - The mode of interaction with the rural people has undergone a sea change on the basis of our firm conviction that the situation demands the “normal” tendency to be reversed. In other words, the villagers are no longer the source from where the information is to be extracted. On the contrary, they are to be involved in the process in such a way that their ideas, analysis, choices and priorities, which really count, can be elicited. It is an understanding and seeing the situation through the eyes of the villagers, the insiders and the people who are truly involved. Rural Camp has a definite purpose and the outcome of this field activity is not only an in-depth understanding of the interaction between different social groups but also an action plan either for initiating concrete projects or for monitoring development actions.

Seminars and Conferences

The students organise various seminars, workshops and conferences every year. These seminars, workshops and conferences on the one hand expose them to international and national experts and on the other, help them to acquire planning, organizing and execution skills and experiences. Students also participate in various events organised by other institutions. They write and present articles and research papers on these events.

Campus Placement Programme

At XISS we believe in nurturing the talent and making them “Ready for the real world”. The Placement Cell helps connect the Organisations with the talent at the Institute. We have tried to keep the entire campus placement process simple and convenient to all.

The Placement Cell

The campus placement of the students of XISS is coordinated by the Central Placement Cell headed by the Chief Placement Coordinator. It works in unison with Departmental Placement Cells constituted of students’ representatives. The Departmental Placement Cells are also guided by the senior faculty members.

For the convenience of the prospective employers, the Campus Placement Programme is detailed below:

- Campus Placement commences on 25th October 2019 and finishes on 5th December 2019 in the first phase. The second phase commences on 6th January 2020 and ends on 31st March, 2020. Interested organisations are requested to inform in advance the date on which they wish to visit XISS for campus placement. They are also requested to indicate the facilities required for the selection procedure, viz. accommodation/transport facilities and bookings, etc.
- On receiving communication from the interested organisations the Placement Cell will allocate a date for PPT and the recruitment process. Group Discussions, Interviews and other methods of selection adopted by the organisation are conducted in the campus. If required, students may be called for final interviews at the company’s expense to its headquarters.
- The institute strictly follows ‘One Student - One Offer’ policy. The candidates placed in one organisation are not allowed to be the part of the placement activity for any other organisation. If any student gets enlisted in more than one organisation then the organisation coming up with the final list first, has the opportunity to take that student in its organisation.
- On confirming the final selection, the appointment letter issued by the organisation is sent to the candidate through the Placement Cell.

Phase I
25th Oct 2019
to
5th Dec 2019

Phase II
6th Jan 2020
to
31st Mar 2020

Pre-placement talk (PPT) & selection process

All the companies are expected to deliver a Pre-Placement Presentation to the students where all relevant information about the job may be discussed. If such a presentation is not possible on the part of any company, then it is requested to send all relevant details making use of the Permanent Placement Reply Format in advance to the Placement Co-ordinator. PPTs can also be held by the company just prior to the commencement of the Campus Placement Programme at the Institute.

Date of joining

The students will complete their studies with all academic obligations by end of March 2020. They will be ready to join the organisations by mid April 2020. Students are allowed to join the organisation only after the completion of the studies.

Campus on wheels

In the last few years, though interested to recruit from the Institute, some organisations have not been able to come down to the campus due to certain unavoidable reasons.

With a view to accommodate the request of such organisations, the Institute has introduced “Campus on Wheels”. The organisations interested in recruiting through “Campus on Wheels” should send the details of date, time and location of the venue for the selection process through e-mail.

Video-Conferencing Facility

The institute also provides video-conferencing facility for conducting the PPT and selection process.
