**Here Nature Nurtures
Young Minds**

An aerial photograph of the APGSU campus, showing several multi-story buildings with solar panels on their roofs. The campus is situated on a green hillside, with a winding road and lush vegetation. In the background, majestic snow-capped mountains rise against a clear blue sky.

Here you will join an outstanding community of students from all over the world, who come together and we work towards achieving their common aim of receiving world

class education in a university which is acclaimed to be one of the best in the country. We have adopted modern teaching methods without discarding values of traditional learning approaches. You can be assured that you will receive education qualifications that are of international standards and recognition. These qualifications are transferable and recognized by other universities. Across our broad range of innovative and challenging courses you will use the latest technology and have access to research by the most brilliant minds from across the world. You will be inspired and challenged by academics who are active in their fields and would be giving you contemporary insights that will help you create your space in the very competitive domestic and global job markets. Our whole administration's commitment to your personal and professional development ensures that you build a firm foundation of your chosen career.

at APGSU we
make it happen

Right at Queen of Hills

Shimla is the former summer capital of British India and the present capital of Himachal Pradesh. It is blessed with natural beauty and a spectacular view of the Himalayas. It is surrounded by green hills and snow capped mountains. There are several historical buildings constructed during the colonial era which give the town a distinct aura, quiet different from all other hill stations.

Shimla is ideally located as it is connected through air services and the UNESCO World Heritage Rail Line made in 1903. However, it is best reached by road that takes in the charms of the mountain countryside.

There is a sense of nostalgia about Shimla with its heritage bungalows, gabled roofs, beautiful landscape and clean air. Shimla offers unique charm that is priceless. Tourists from across the world visit Shimla throughout the year.

There's something for everyone

APGSU is located on the outskirts of Shimla city, on a hill top. The serene, peaceful, lush green environment; away from hustle, bustle, noise and pollution of the mid-city environment makes it the ideal learning center. It's a mini town ship on its own, with all the facilities within the campus. We offer a wide variety of courses ranging from engineering, information technology, management, media, commerce, law, hospitality, architecture and fashion.

Alakh Prakash Goyal Charitable Trust, is a nonprofit charitable organization that aims to mobilize world class education and generate resources for supporting mass quality education for all kind of masses & public by Shri Rajesh Goyal, a successful entrepreneur as well as a social worker. AP Goyal Charitable Trust has been carrying out various social and welfare activities in education, health and welfare sector. The trustees have created adequate linkages, assurance and support from a large number of leading business houses to ensure the essential ingredients for the promotion of quality education, i.e. adequate financial resources, educational and managerial support and availability of quality faculty besides providing assurance of quality placements. The University has been established in the name of Alakh PrakashGoyal Shimla University. The University befitting its status as the University is offering professional degrees.

Chancellor, Dr. Rajat Mathur

True leaders have integrity. Integrity is the very core of their influence. Living the values they profess to believe in is what gives them credibility and allows others to place their trust in them. True leaders are able to say "do as! do" rather than just "do as I say", because they lead by example. APGSU is led by a true leader - Dr. Rajat Mathur. He is the Chancellor of the university and under his dynamic leadership a dedicated team of renowned academicians of the country shape the future of the students. He ensures that only the brightest minds mentor to create graduates of the highest caliber.

Vision

To create an institution of quality education, scientific learning and robust professionalism.

- An institution which will benefit student, staff and society by seamlessly linking education with employment.
- An institution which will promote individual excellence and collective endeavors through interdisciplinary studies, International diversity and adoption of best practices in the peaceful and tranquil environment of the Himalayas.

Mission

The Alakh Prakash Goyal Shimla University will strive to be a centre of professional education, intellectual resources and academic excellence in this part of the world.

- Our mission will be to impart vibrant and comprehensive education to students enabling them to be catalyst of change.
- We will encourage the students to explore, experiment, create knowledge and develop their full potential while maintaining the highest standards of integrity in their personal and professional lives.
- We will expose our students to inter disciplinary learning, cross cultural diversity and promote "Learn in India" through international exchanges, collaborations and curriculum.
- We will produce leaders who inspire, winners who set positive standards and achievers who have the ability to make the difference.

Wake up to a fresh approach to learning. Students of APGSU are expected to work smart and hard. Lectures, Group Discussions, Seminars, Tutorials, Live Project Assignments, Real Life Case Studies and Visiting faculty sessions are part of the weekly schedule. Experts from International Partners Universities of European Union (EU) conduct specialized sessions to enhance your motivational level. Team work is the key to active learning, Students are encouraged to participate, debate, contribute, share and collaborate. In the beginning of the session, all students are put through a foundation course to identify and work on their developmental requirements.

Beacons

that guide

The ongoing research being carried out at various partner universities of Europe & Asia, as well as the close linkages with industry ensure that the staff and faculty members are aware of the latest developments. New technologies and developments are quickly incorporated in the curriculum and the courseware updated to fulfill the changing needs of the industry.

APGSU offers a diverse range of innovative study programs and courses in the fields of Engineering, Agricultural Sciences, Design, Law, Pharmacy, Applied Sciences, Commerce and Humanities. Over the years, APGSU has established a growing legacy of innovative thinkers and an exceptional standard of academic achievement. Today it is considered to be one of the leading educational hubs in the region.

All programs are tailored to meet the industry needs and the emphasis is on teaching theories and their applications in a practical framework. Online tools are extensively deployed to facilitate the learning process. All this renders a positive learning experience like never before and translates your dream of a successful career into reality.

**Future glows bright
only if midnight oil
is burnt well today**

A Distinctive approach of learning

making your tomorrow today

Future is rooted in the knowledge tree

The teachers are the roots that strengthen the tree of knowledge and help bear the fruits of success later. The two essential ingredients, therefore, for a successful institution are experience and the drive. The lecturers have the dedication and drive to teach and this skill becomes better when their experience is added to it. APGSU has a healthy blend of experienced senior faculty, who design the course curriculum for best results, and the freshness and enthusiasm of the young members of the faculty who are eager to add their dimension and contribute positively. In addition to the regular curriculum, students benefit from the industry institution interactions that help them have a firsthand experience of the work atmosphere in real life situations. Students also benefit from the summertime projects that they attend during vacations. Prominent speakers, comprising of eminent educationists, academicians and industrialists, visit and deliver guest lectures on their subject of specialization in the seminar hall specifically designed for the purpose.

Programs

what makes us IRRESISTABLE

LEARNING FOR EMPLOYABILITY

Employers look for qualified people who have the technical knowhow, the ability to communicate, work in teams and other personal skills. At APGSU our programs are developed to provide you not only with interesting and stimulating modules to develop your mind, but also to enhance your knowledge and skills and increase your ability to compete for that dream job. Much of what is current knowledge will soon be outdated and the reality is that to succeed you need to adapt and innovate. We achieve that through

- Innovation through the design of curriculum, the module content and the learning approaches.
- Integration through developing your capabilities to interrelate knowledge and to work in multi disciplinary teams.
- Information through developing your knowledge and also your abilities to communicate effectively and persuasively.
- Interactivity through the use of group work to develop your teamwork skills and through the use of technology to achieve interactivity of devices and people.
- Imagination in relation to new products, ideas, applications and solutions.

INTERSHIPS

- The main aims and objectives of the internship program are to provide
- Enhanced Employability | Interpersonal and Social Skills | Inter relationships of Theory and Practice | Career Preparation | Insight into the World of Work | Personal Development | Technical Development
- In many cases the same company at which you intern will offer you employment as soon as you graduate. In all cases you will gain an invaluable insight into the actual work environment and be better equipped to prepare yourself for the profession you wish to enter.

UNIQUE PROGRAM DESIGN

The university has adopted a framework for specifying learning outcomes of program. Eight categories of learning outcomes have been identified and exemplar indicative descriptions of learning outcomes within each category appropriate to the given level of study have been produced as guidance. These categories of learning outcome and the exemplar indicative descriptions of learning outcomes map directly onto the requirements of the national and international qualifications framework. This is to ensure that any award that produces learning outcomes can be mapped onto the 8 categories that are consistent with the exemplar indicative descriptions of learning outcomes and conform to the requirements of the National and International qualifications framework.

THE PROGRAM SPECIFICATIONS

- Programs & course aims & objective
- Program & curriculum themes
- Individual course aims & learning
- Outcome by level
- Module maps & themes
- Module learning outcomes
- Module skill development
- Learning methods
- Module content
- Assessment Methods

LEARNING OUTCOMES

- Knowledge & understanding
- Learning
- Enquiry
- Analysis
- Problem solving
- Communication application
- Professional ethics
- Reflection & autonomy

SKILL DEVELOPMENT

- Critical thinking & analysis
- Effective problem solving
- Creativity & innovation
- Communication
- Numeracy & quantitative skills
- ICT skills
- Self management
- Learning
- Self & cultural awareness
- Team working

Arts/Humanities

- Diploma in Yoga Studies
- Diploma in Indian Classical Music
- Diploma in Performing Theatre Arts

Yoga is both a Philosophy and complete Science of Ancient India. It is, therefore is a backbone of Cultural Heritage of our Great Country. The message of physical, mental, social intellectual and spiritual wellness has been passed to the humanity by Saints and Sages of Oriental times of India. Today the world has recognized its peace to maintain health, peace and harmony globally. To motivate and inspire the people of all walks of life, many NGOs have come up. The diploma in Yoga Studies allows you to become professionals all over the world.

Indian music has a very long and continuous tradition, which has accumulated its heritage over the centuries. It is an indispensable part of the activities of man's everyday life. It is a spontaneous outcome of the human feelings and emotions in a melodious and rhythmic manner. Where words fail, music successfully conveys. Music plays a significant role in the lives of human beings. Indian music has developed within a very complex interaction between different people of different races and cultures. It appears that the ethnic diversity of present-day Indians has been there from the earliest of times. History of Indian music unfolds the verity that music gradually changed in shape and form. The geographical conditions in India and the cultural complex of its people have throughout remained important determinants in shaping its music. Indian music also changed its shape by external influences.

Theatre as an art form is a part of world heritage. It has a well-documented history which can be traced back thousands of years. Studying theatre is almost studying the history of the cultural heritage of the world. Theatre deals with human relations as existed in a particular age and mirrors it through the art form. So, to know about theatre is to know about the traditions, customs, manners and behavioral patterns. As an art form, theatre evokes finer sensibilities among human beings. Its major concern is to discuss human relationship in extremely sensitive movements; no other art form portrays human concerns so delicately yet so strongly. Theatre can be studied as an experience, viewed as an entertainment and performed as an instinct of human behavior.

Advance Computing

- B.Tech - Computer Technology in AI
- B.Tech - Computer Technology in Data Science
- B.Tech - Computer Technology in IOT
- B.Tech - Cloud Technology & Information Security

Advance computing at APGSU provides an unmatched head start towards a truly global engineering career. Advance Computing course at APGSU understands the global perspective and has put it on top of the agenda to establish ground breaking relationships with industry to instill the passion for entrepreneurship in its graduates.

Vision:

To establish Center of Excellence in Advance Computing to create a platform for academia, industry and R&D to share knowledge.

- Data Science
- Internet of Things
- Artificial Intelligence
- Cloud Technology & Information Security

Architecture

- B.Arch
- B.Planning

Architects are the magicians behind the magic of aesthetically and beautifully designed functional buildings. What today is considered as one of the most chic professions, Architecture is among the high rated. Career in architecture is not only well paying but also gets the creative juices flowing. One can pursue his/her passion while getting remuneration for the same. There are some career options one can opt for:

- Professional Practice
- Can work as a Site Architect or Project Manager (if interested in Real Estate)
- Joining construction companies or large real estate firms
- Specialization in City planning, Urban Design, Landscape Architecture, Architectural Conservation, Environmental Planning, GRE & TOEFL etc.
- Techno-management courses like digital architecture
- Creative career opportunities like Product Design, Interior Design, Set Design, Graphics Design etc.

- B.Sc in Forensic Science
- B.Sc in Cyber-Security
- B.Sc in Bio-Technology
- B.Sc in Animation
- B.Sc in IT

The Bio Science Option of the B.Sc. degree is geared toward students whose interests and skills in science are more cross-disciplinary than those students who pursue traditional majors in biology, chemistry, computer science, math or physics. You will be taught a broad range of topics in the sciences, humanities, and the arts and have a broad knowledge of the sciences, with a concentration in one of the sciences.

B.Sc Bio Technology degree focuses more on the biological sciences aspect of Biotechnology. A few subjects related to industrial processes are also taught but the main emphasis is on R&D in biological sciences fields such as Biochemistry, Plant and Animal Biotechnology, Microbiology, Molecular Biology and Microbial Genetics to name a few. Its widespread application across multiple industries like food, pharmaceutical, chemical, bio-products, textiles, medicine, nutrition, environmental conservation and animal sciences makes a career in biotechnology one of the fastest growing fields with ample opportunities for qualified professionals.

Forensic Science is the major study of science and criminal justice. It requires the application of scientific knowledge and methodology to criminal investigations and legal problems. Forensic Science is a multidisciplinary subject. It encompasses various fields of science such as chemistry, biology, physics, geology, psychology, social science, engineering, etc. It is essentially a crime laboratory-based profession. After completing your degree, you can open your own forensic practice & forensic service offices. You could also look for employment in Forensic Laboratories, Detective Offices, Banks and other government and private agencies.

Computer Science is about understanding computer systems and networks at a deep level. Computers and the programs they run are among the most complex products ever created. The course concentrates on creating links between theory and practice. It covers a wide variety of software and hardware technologies and their applications. You got to have a flair for mathematics, which you will develop into skills that can be used both for reasoning rigorously about the behavior of programs and computer systems, and for applications such as scientific computing. You will also gain practical problem-solving and program design skills. The majority of subjects within the course are linked with practical work in our well-equipped laboratory.

Commerce

- B. Com
- B Com (Hons) in International Accounting and Finance (with ACCA)
- B Com in Financial Market by NSE

The Bachelor of Commerce course has the objective to provide students with the knowledge, tools of analysis and skills with which to understand and participate in the modern business and economics world. It prepares the student for subsequent post graduate studies and to achieve success in the commercial and financial sectors. Students will learn about major theories and models in key areas of

- Organizational behavior
- Analyse organizational problems and its realistic solutions
- Macroeconomic theories, policies and issues
- Market trends
- Government policies
- Resource allocation
- Key concepts underlying quantitative decision analysis
- Range of problems in economics
- Actuarial studies
- Accounting
- Marketing
- Management
- Finance.

Computer Application

- MCA
- BCA

Master in Computer Application (MCA) and Bachelor in Computer Application (BCA) are popular courses among the students who want to make their career in the IT (Information Technology) field. The duration of the course are 3 years each and divided into 6 semesters. It comprises of the subjects like database, networking, data structure, core programming languages like 'C' and 'java'. This course provides a lot of opportunities to the students who are interested in computer field and wants to work in the IT sector as programmer or software developer.

- B.Sc - Fashion Design
- B.Des - Graphics & Communication Design
- B.Des - Product design
- B.Des - Interior and Furniture and Exhibition
- B.Sc - Apparel Production & Management
- Diploma in Fashion Design

These undergraduate professional programs are committed to training students in the various fields of art and design with a focus on cross-disciplinary education. The program exposes students to an exploratory and creative learning process with a focus on experiential learning. During the course of studies, an individual concentrates on the building of basic technical and conceptual skills in art, design and technology organized under particular design philosophies and principles. Students are provided with context-based learning in real world and complex scenarios that will hone both their technical and conceptual skills.

Career

During the tenure of the course students will gain expertise and knowledge necessary for seamless entry and sustained progress in the dynamic, exciting and diverse world of creative commercial design. The students will be taught about the basic principles of design and modern technologies available to implement projects. In addition the course would expose them to the commercial aspects also like planning, marketing, and product development. It would teach them to collaborate productively in interdisciplinary teams to give a platform that fosters design thinking, enquiry and innovation.

- B.Tech in Advance Computing
- B.Tech (Civil Engineering)
- B.Tech (Computer Science Engineering)
- B.Tech (Electrical Engineering)
- B.Tech (Mechanical Engineering)
- M.Tech (Civil Engineering)
- M.Tech (Computer Science Engineering)
- M.Tech (Electrical Engineering)
- M. Tech (Mechanical Engineering)
- Ph D IN Electrical Engineering
- Ph D in Mechanical Engineering

The APGSU engineering programs expose the participants to the fundamentals of engineering principles and professional practices. The specialised courses will train the incumbents for entry level positions in the engineering industry or make them eligible for higher studies in India and abroad. It is a stimulating study that's necessary for understanding the impact of engineering solutions in a global and social context. You will learn to analyse contemporary engineering issues and will be encouraged to develop and apply solutions.

Career in Engineering

There are many possible careers in Engineering depending not only on your degree but also on your personal skills and preferences. That is why a part of the course involves helping you to develop a career plan. Today a wide variety of organizations need more efficient, effective and competitive operations. Depending on your choice of degree your contribution to this can span many manufacturing and construction sectors as well as other sectors that need highly skilled employees.

- BHM
- MHM
- Diploma Course in F.P, F/B, HK, FO

APGSU School of Hospitality and Tourism Management was established in 2012. In this School young students are transformed into successful hospitality professional, by a blend of theoretical instructions with maximum practical and on the job training. Preparing them as future administrators based on the present day need demands of hotels, restaurants and hospitality management with emphasis on duty and discipline which is key success in hospitality industry. They are then provided with real industry placements that allow them to learn the industry first hand beyond the walls of their structured classes. This real world experience is invaluable in helping them understand the theoretical concepts they have learnt within a working environment; it also allows them to build significant industry networks.

Career Prospects

- National: **The Oberoi, Taj , Marriott , Hyatt Regency**
- International: **Ritz Carlton Dubai The Westin Turtle Bay Resort & Spa, Holiday Inn China, Banyan Tree Spa Resort Mauritius, Renaissance Malaysia**
- Airline Catering and Cabin Services: Jet Airways , Indigo
- Cruise Liners: Carnival Cruise Line, Crystal Cruises, Seven Seas Cruises
- Hospital administration and catering
- Hotel and Tourism Associations: Goibibo, Make My Trip, Cox & Kings, SOTC India, Oyo, Trivago
- Call Centers : Amex , Genpact Ltd., WNS Global Services,
- Forest Lodges
- Guest Houses
- Banks
- Catering departments of railway, institutions, armed forces, etc
- Sales and marketing
- Self employment

JOURNALISM

- Ph D-Journalism
- MA-Journalism & Mass Communication
- BA-Journalism & Mass Communication
- Certificate Course in English Communication

These programs prepares you for a career in the news media production industry. With an emphasis on the social and cultural impact of various media forms this program examines the technologies, practices and policies that drive modern media communication. Applied skills such as image building, different styles of writing, editing and working with layout softwares, audio-video editing techniques are also covered. You would be trained to follow, contextualise, and think critically about local, national and international subjects. The faculty would guide you to think and write critically, creatively and independently.

The APGSU journalism courses have been designed to meet the needs of the industry. The program has been created in consultation with industry experts to prepare the students for all aspects of the job. Broad areas that will be taught are:

- Basics of journalism & media
- News production process
- Reporting skills, techniques & news beats
- Television anchoring
- News writing techniques
- Various news formats of television news
- Television feature story production
- Interview techniques & panel discussions
- Television studio production & PCR operations
- Video editing
- Camera operation & multi-camera setup
- Voice-over skills
- New Media Application and Convergent Journalism
- ICR

- LLM
- LLB
- BALLB
- Ph. D-Law

In a world of growing complexities, the law graduate of the future needs a deep reservoir of knowledge, cross-disciplinary expertise, and the mental agility to think, analyse, and communicate.

Our graduates are trained and well-equipped to excel across diverse legal areas of practice in the private as well as public sectors and in areas such as commercial, criminal and litigation. They are thoroughly enabled to be an excellent, articulate and confident legal practitioners with an acute sense of discernment and an ability to engage in any area of law with ease,

APGSU undergraduate law program aims to mould students into excellent holistic lawyers who will contribute significantly to society. The objective is to produce law graduates who have contextualised knowledge and the ability to think across disciplines and geographical borders.

The innovative and broad based Bachelor of Law (LL.B.) curriculum has an international focus. It gives students a powerful blend of IQ and EQ - hard knowledge skills and soft people skills, which include skills in analytical thinking, problem solving, communication, presentation, leadership and team building. It also inculcates in students a strong sense of social and ethical responsibility. Add to this is the compulsory internship which exposes students to real working life and hence provide an insight into their future career choices.

APGSU has BALLB of 5-years and LLB of 3-year meritorious honors program. The entry level of 5 years is higher secondary and for 3 years is graduation. The curriculum comprises a careful mix of university core courses, law core courses, law-related courses, law electives as well as general education courses to ensure that graduates possess the desired contextual and cross-border knowledge and expertise.

Consistent with APGSU's mission, the Law School adopts a pedagogy that is fresh and different. The program bears APGSU's distinctiveness of holistic learning, interactive pedagogy and international and practical exposure.

MANAGEMENT

- MBA
- BBA

We, at APGSU empower our students with intellectual, digital as well as entrepreneurial abilities, so as to enable them to rise above the norm in the competitive world. Our goal is to influence best industry practices and promote value-based management education for the students. The functional learning methods implemented by the university are directed towards grooming the students for enhancing their professional skills and abilities.

We believe in bringing our students to the forefront with proficient soft skills, competency and leadership qualities. The distinct teaching methods provide learners a progressive mindset of comprehensive thinking to act independently and tackle the challenging times in the industry.

Overall, the courses offered by the Alakh Prakash Goyal Shimla University combine theories and practices of management to empower students to become outstanding professionals, business leaders and entrepreneurs.

Labs

Future theories are based on current practices

Experimenting and putting to practical use the theoretical expressions is the key to sound education, Laboratories form the backbone of a quality technical educational institution. APG has the following facilities integrated by five servers. Students get hands on experience and real life situations to handle, which make them competent and skilled. These labs are also used for research work and by the industries in the neighborhood for regular updating.

Mechanical Engineering

- Workshop Practice
- Engineering Graphics
- Strength of Material
- Thermodynamics
- Dynamics of Machine
- I.C. Engine
- Heat & Mass Transfer
- CAE/CAD/CAM/CIM
- Automobile Engineering
- Refrigeration & Air Conditioning

Civil Engineering Labs

- Surveying
- Structural Engineering
- Concrete Technology
- Geotechnical Engineering
- Transportation Engineering
- Environment Engineering

Computer Science & IT

- Programming
- Computer Networking
- Artificial Intelligence & Neural Net
- Database
- Operating System
- Big Data & Cloud
- Computer Graphics
- Computer Hardware
- Apple iOS
- Android
- Moocs
- Software Engineering

Electrical Engineering Labs

- Power System
- Basic Electrical Engineering
- VLSI
- Electrical Machines
- Measurement & Instrumental

Sciences Labs

- Forensic Science
- Biotechnology

Communication Lab

- Fully Equipped Studios
- Language Lab

Future is in understanding the past and benefitting from it.

Library is a treasure trove of knowledge that one digs into to pick up gems of knowledge. The institute has an aesthetically and tastefully designed library that has in its shelves a huge collection of interesting and informative books for the benefit of the students. The collection contains a plethora of reference books, course materials, periodicals and books on various subjects and topics. The digital library has informative CDs, study material in interactive format, which are used by the students for better understanding of the subjects. Students also have access to the internet. A photocopier is also provided in the library for their benefits.

- **Reference service is given to assist right information to the user at right time.**
- **central library can Accommodate 190 user at a time.**
- **Collection of thesis project reports and dissertation for consultation of users.**
- **Free Membership of**
 - 1) **National Digital Library**
 - 2) **South Asia Archive (ISAA) and Wel e-Resource**
 - 3) **Shodhganga**
- **Total Capacity of all libraries-190**

Campus

thoughts makes SU campus a mini world. While the ambience is inspiring, the vastness and spaciousness is simply alluring. APGSU campus is meticulously planned and is setup in 26 acres of land with state-of-the-art buildings and infrastructure. With over 2,00,000 sq. ft. of constructed area, the campus has separate functional zones like, main college buildings, administration block, residential and sports complexes. The campus is well-planned, having facilities like spacious lecture halls, tutorials rooms, drawing halls, laboratories, computer center, library, canteen, hostel and sports complex. The eco-friendly campus is aesthetically designed in serene surroundings with lush green lawns and landscaping to provide an atmosphere that is conducive to learning. The lecture halls, tutorial rooms, drawing halls, laboratories, computer center and language lab are well laid out with state of the art audio visual support. The edge to edge wi-fi around the campus makes it easy for students to keep themselves connected to the intra-college network at all times.

Sports Facilities

Today, sports are being looked upon as an alternate career option. SU lays great emphasis on physical fitness and mental agility. Sports and games activities form an integral part of curriculum. Yoga and meditation classes are conducted to inculcate holistic health. While Yoga keeps the body fit and active, meditation provides mental agility that is essential while pursuing strenuous professional courses. Facilities and infrastructure are in place for students to pursue sports activities of their choice. Trained professionals offer coaching in various sports disciplines. Students of SU have won laurels and have entered the institution's hall of fame with their achievements. Games like volleyball, cricket, football, basketball, hockey, table-tennis and badminton are regularly played in the campus. Exceptionally talented students are encouraged to take special coaching and shine.

Medical Facilities

Every student, on joining the institution, is provided with an insurance cover. A Medical Inspection Room has been set up with a Doctor and a trained Nurse in attendance round the clock for medical assistance. The institution has a dedicated ambulance to handle any emergencies that may arise. We have a tie-up with a corporate hospital nearby and associations with many recognized hospitals, to provide specialised care to students.

Security

To prevent outsiders from entering the premises and disturbing the students and to ensure the safety of the students, a professionally trained security agency with impeccable credentials has been hired to provide security. Even parents are allowed to meet the authorities only after seeking appointment in advance.

Transportation

Commuting by state run buses have erratic schedules and are inconvenient for the students to use. Many extraneous factors may also cause disruption of services or upset the schedule. With a large fleet of comfortable buses, manned by trained drivers, SU has made elaborate arrangements to ensure that students commute to the college punctually, smoothly and comfortably from any part of the city.

ATM Counter & Departmental Store

There is an ATM counter, departmental store and photo copying facility within the campus to meet the student's needs.

Student Housing

Future relations are strengthened by the bonding developed today.

Hostel facilities are exemplary at SU. Students coming from different parts of the country and abroad feel at home in the hostel. The hostel complex has an ultra-modern layout, with separate residential facilities for boys and girls. Amenities like common kitchenette, laundry room, ante room with LCD TV, hot water facilities, cosy beds, study tables, recreational facilities like indoor games, newspapers and magazines are all in place. Wardens are the local guardians who act as guides, and give moral and psychological support to the residents. Safety and security of the students in the premises is given utmost importance, therefore a professional security agency has been entrusted with the task of providing round the clock security to the residents.

Dining

Healthy minds need a healthy body

Professionally trained and experienced chefs prepare a variety of purely vegetarian north Indian, south Indian, continental and chinese cuisines to suit the tastes of all students. Management members and senior faculty too share the food regularly to ensure that there is drop in the quality. The dining hall is spacious, neatly maintained and can seat large number of students. Food is prepared and served in hygienic conditions. In order to ensure that balanced nourishment is provided, a dietician designs the weekly menu. Students who need special diet are accommodated to suit their requirements.

Day scholars who feel like having refreshments between classes can enjoy the light snacks or full meals at the cafeteria.

Holistic Approach

CONTRIBUTING TO THE SOCIETY

Our Future lies in societal growth

The society in which we exist should grow and develop. Only then we can truly grow. APG encourages its students to visit nearby villages, organise adult literacy programs, plant trees, conduct medical camps and pursue other social awareness campaigns. This is done to inculcate in the students a sense of social consciousness, which is a key component of nation building.

As a part of social awareness program, APG encourages students to join the National Service Scheme (NSS) and actively participate in various welfare activities. As a part of NSS activities, the volunteers organise blood donation camps, free medical camps, conduct cleanliness drives, flood relief camps and so on, to create awareness among the people of the adjoining and remote villages. It becomes a learning experience for the students as they come across real life situations that need impromptu decisions and strategies that tests their leadership skills.

Career Guidance & Corporate Relation Centre

Academic excellence leading to assured placements

Career prospects are bright with APGSU. Getting the right person for the right job is a challenge that the industry is facing today. APGSU's professionally managed dedicated Placement Cell co-ordinates with leading industrial establishments and organises campus interviews, where the students have the choice of opting for the job and organisation of their choice. Students are given proper training, guidance and counseling on how to prepare their resume, crack interviews, develop divergent thinking, communication skills, master group discussions and other interactive skills. The placement officer guides the students through initial counseling and mock interviews, aimed at building the confidence for the actual interview. Prominent executives from various industries are invited to deliver motivating lectures and provide an in-sight into the current market requirements.

Student Centric University

As part of APGSU's long term mission & vision, we constantly aim to provide access to world-class education to a broad spectrum of students. In our efforts to provide better opportunities to pursue higher education at India's Award-Winning University, we are offering deserving and talented school leavers a wide range of merit scholarships, bank loan assistance and study loan by the university.

Apart from academic excellence, the APGSU merit scholarships recognize those with strong leadership qualities and high achievements in sports both at state & national levels. These individuals deserve brighter futures and SU shall help to make it happen. Detailed information on scholarships are regularly updated on website for prospective students.

All scholarships are limited to few seats and are on first come first serve basis.

- *Merit based scholarship*
- *Merit cum means scholarship*
- *Sports scholarship*
- *Student ambassador scholarship*
- *Excellence scholarship*
- *HP government scholarship*

Smt. Kamlesh Agrawal Study Loans are available for students pursuing tertiary education. These study loans are given to only those students who are meritorious but financially weak. Only those students may apply for this loan who fail to get a bank loan for any reason. The student will be required to apply for the loan on a specific application form. The loan amount will meet only the partial semester fee and the student will be required to repay the loan after six months of passing out from the university. A legal agreement will be drawn and the parents and the student would be required to sign on it.

Open Day @ APGSU

Selecting the right university for you is an important decision – it's a potential life changer

APGSU open days are mainly conducted for students who are considering which university to enter after completing higher secondary or graduations. We are happy to welcome you. You will have a unique opportunity to see our campus's outstanding facilities, talk to our counselors and lecturers, attend our career talks or visit our Research and Development showcase.

If you are interested in our courses or just want to enquire about the University, you are very much welcome to visit our Open Days.

Extended Counseling Hours

APGSU Student Services staff are happy to advise you on courses and programs offered, on every weekday from 9am to 7pm. You can either arrange an appointment with us by calling us or walk-in anytime and meet our staff here. You will be able to see the University's facilities, talk to our counselors as well as talk to the current students and experience the environment of the University's busy day.

For the full listing of our courses, visit: <http://www.agu.edu.in...>

ADMISSION PROCEDURE

Applications are invited through online/offline mode.

Step 1: Register online or submit application form by post to university.

Step2: An automated verification link / offline intimation letter to your registered email. You can activate your account by clicking link or appear in offline test at designated center.
