## About Jamia Hamdard

*'Committed to excellence in higher education'*

Jamia Hamdard (JH) was declared as a deemed-to-be University by the Govt. of India in 1989 on the recommendation of University Grants Commission (UGC) under the UGC Act 1956 in recognition of the services provided by erstwhile educational institutes established by the Hamdard National Foundation (HNF). These institutes, built over a period of time, included the Hamdard College of Pharmacy, Hamdard Tibbi College, Rufaida College of Nursing, the Institute of History of Medicine & Medical Research, and Indian Institute of Islamic Studies.

Jamia Hamdard was inaugurated by the then Prime Minister of India, Shri Rajiv Gandhi on August 1, 1989, who in his inspiring inaugural address applauded the efforts of Hakeem Abdul Hameed Saheb, the Founder, for setting up a number of institutions of learning which were finally merged to form a “Deemed to be University” namely Jamia Hamdard. In the words of Shri Rajiv Gandhi, “This will enable minority to go forward and help India to march forward”.

Spread over a sprawling green campus of about 100 acres, located on a prime piece of land in South Delhi, JH has ten Schools including a medical college, two hospitals – a 750 bedded modern medicine hospital and another 150 bedded Unani medicine hospital – on its campus. It has a big library, archive centre, separate hostels for girls and boys, gymnasium, a large playground, residential quarters for the staff, and also an off-campus in Kannur, Kerala.

The University has been maintaining a steady progress in all facets in its existence of 30 years and is both nationally and internationally recognized for the quality of teaching and research. The overall progress in this period has been excellent in terms of infrastructure and maintaining the standards which is evident from the placement records, high quality of research, publications and patents. Jamia Hamdard is among top 20 universities of India and ranked 1<sup>st</sup> in the field of Pharmaceutical sciences and its medical college is ranked 15<sup>th</sup> by the Govt. of India (NIRF-2019 ranking). JH is perhaps the only privately funded University to get funding under the DST's PURSE (Promotion for University Research in Science and Engineering) Grant. Jamia Hamdard was placed at 2<sup>nd</sup> rank in  $i_{10}$  values and 5<sup>th</sup> in  $i_{100}$  values as per SCOPUS dataset of all the Institutes that were awarded the DST PURSE grant. The publications of Jamia Hamdard have received >16 citations/paper, perhaps the 2<sup>nd</sup> highest in India. The h-index of Jamia Hamdard is more than 100 and  $i_{100}$  is 100. About 38% of all our publications have been cited at least 10 times according SCOPUS database. JH has a close relationship with DRDO and joint research between Jamia Hamdard and INMAS-DRDO has led to development of pharmaceutical products which are being used by defense forces. The High Powered Committee established by the Government of India to identify “Institutions of National Eminence” has recommended Jamia Hamdard among the top 6 universities in the private sector.

The University follows a unique 3-Tier selection system for faculty appointments and in recent selections candidates from Johns Hopkins University, US-Ivy League Institutions, National University of Singapore, IIT, IIM have accepted and joined as faculty members.

## The Founder

The Founder-Chancellor of Jamia Hamdard, Hakeem Abdul Hameed, a renowned physician of the Unani system of medicine served the poorest of the poor and also had global dignitaries and personalities such as Prince Charles of England as his patient. Hakeem Saheb was a philanthropist who always had public service as his driving force. He set up a complex of educational institutions over a period of time which finally got amalgamated in Jamia Hamdard in 1989.

The first institute that was built on the piece of land in Tughlaqabad, which today houses a number of Schools of the University was the Institute of History of Medicine and Medical Research. The foundation stone of this institute was laid on November 15, 1962 by the then Prime Minister of India, Pandit Jawaharlal Nehru, the building was inaugurated by Mrs. Indira Gandhi, the Prime Minister of India in 70s. The Great Hakeem Saheb also set up several other institutes which include the Hamdard National Foundation, Hamdard Education Society, Hamdard Study Circle, Hamdard Public School, Ghalib Academy, the Centre for South Asian Studies, and Business & Employment Bureau.

Hakeem Abdul Hameed was conferred the Padma Shri and Padma Bhushan by the Government of India, awarded the Avicenna Award by the erstwhile USSR in 1983, and was nominated as honorary member of the Academy of Medical Science, Iran. He served as Chancellor of Aligarh Muslim University. In October 2000, the Research Centre for Islamic History, Art and Culture (IRCICA) Istanbul, Turkey, presented IRCICA Award to him posthumously for Patronage in Preservation of Cultural Heritage and Promotion of Scholarship. Hakeem Abdul Hameed was a true follower of Islam in letter and spirit and strongly believed in “And spend in the cause of Allah and do good, for He loves those who do good for others” – *Al Quran, 2:195*.

Due to the core competencies of the faculty the department has made a name for itself, both among industry erudite and intelligentsia. The degree awarded is a master's degree with specialization in General Management. In the year 2014, the Bachelors Program of BBA was initiated. So far this has been a well received program. The Department was bifurcated in 2016, into Department of Management and Department of Health & Hospital Management. The pedagogy involves combination of the theoretical concept with practical application. This is achieved by discussing the latest developments in management thinking and their applications in the Indian context through case studies, club activities, seminars, Guest lectures and Industrial tours. The students are encouraged to overcome the limitations of classroom education by attending club activities twice a week. The club activities provide a platform for polishing the communication and presentation skills. During the club session, students make individual presentations on recent happenings in the areas of management. They also organize Management Fests, Biz-Quiz, Debates, Ad-mad shows etc. through which learning becomes a pleasant experience. In order to have interaction with the corporate world, the MBA Programme incorporates guest lecturers as part of its curriculum. The department invites guest speakers from the industry to interact with the students and give insights in contemporary issues and developments.

## School of Open and Distance Learning

One of the key concepts in the right to education is access: access to the means to fully develop as human beings as well as access to the means to gain skills, knowledge and credentials. Distance education is an instructional delivery system that allows students to participate in an educational opportunity without being physically present in the same location as the instructor. The rapid growth in the number of distance education courses and programs has had a profound impact on the ideas and beliefs about teaching and learning.

There has been a significant growth in the area of open & distance education around the world. Open and Distance Learning (ODL) mode of education has been recognized as one of the effective tools of educationally empowering those sections of the society, which could not afford to join the formal on-campus education due to various reasons. As a result it is an effective tool for non-formal education. Presently, ODL institutions are not only imparting education as an alternative to the formal system but also making effective contribution in areas, such as vocational and technical education and even in high technology based education. The distance education also has potential to reach to un-reached and even marginalized and excluded groups of the society such as tribal populations and Muslim women. Open and distance education provides an opportunity to students for acquiring new knowledge and skills that are needed for their development. Jamia Hamdard being in education for a long time has taken initiatives to offer an opportunity to those students who are unable to get on-campus education and those who have limited access to educational resources.

The School of Open and Distance Learning (SODL) of Jamia Hamdard was established in 2004 to promote education through open and distance learning system. Its flexible and innovative methods of education endeavor to ensure 'independent learning' to anyone, anytime and anywhere. ODL programmes of Jamia Hamdard also envisage to provide an opportunity to girls from Muslim community, who by and large have been left out by the national educational endeavors.

Jamia Hamdard's study programmes under ODL are selective and customized to meet the learning requirements of knowledge seekers as well as to ensure that they learn at their own pace and convenience. Within the financial means of Jamia Hamdard, due care has been taken to keep the cost of education low, so that educationally backward sections can take advantage of Jamia Hamdard programmes through ODL mode. This goal in view, the SODL of Jamia Hamdard has made concerted efforts to offer professional and job oriented courses with regular updates of curricula and study material and introduction of tools of Information Technology. Transaction of the curriculum is effected by means of specially prepared materials in the form of Self Learning Material (SLM) which are delivered to the learner at their doorstep through various media such as print, audio/video tape, CD-ROMs, etc. A technological medium replaces the interpersonal communication of conventional classroom based education which is between the teacher and learners.

Jamia Hamdard offers education through ODL mode in few selected programmes where Jamia Hamdard has tremendous strength. The courses are designed and developed with views to prepare a cadre of manpower with requisite knowledge and professional skills so that they can effectively function in the globalised economy, which is no doubt highly knowledge intensive. In its endeavors to cater for education and training needs of different socio-economic groups, the programmes have been carefully identified to fill the contemporary gaps in available courses offered by other institutions and the market demand, and/or to provide cost-effective options to the weaker sections of the society, who are unable to reap the benefit of development due to lack of adequate education, training and skills.

Without sacrificing the quality of education, the cost of education is kept very low so that the economically deprived sections may afford to pay fees and benefit from the educational opportunity provided at the doorsteps.

## 3. Admission of International students

However, students can also be admitted as transfer cases in the middle of the course from other institutes with which there is an understanding for accepting the students as transfer cases.

The admission of International students is done in two steps:

**First step:**

A student wishing to join Jamia Hamdard gets the information on the courses available, the eligibility requirements and admission procedure from the prospectus or the website of Jamia Hamdard [www.jamiahamdard.edu](http://www.jamiahamdard.edu). Following this the candidate has to register for the course of study ONLINE (Also take out the print of online registered application form).

The Foreign Students Affairs office after getting the eligibility criteria checked and other relevant information provided will accordingly issue a Provisional Admission Offer Letter (on payment of non refundable advance amount of 20% of the total annual course fee). This is required to get the VISA and to complete other formalities. At this stage, if required, Telecon Interview of the candidate may also be conducted.

After getting provisional admission, the candidate should get the 'Student VISA' / Research VISA (as the case may be) and complete all other formalities.

Jamia Hamdard also requires the students to appear and qualify the **English Language Proficiency Test at the concerned school**. Once this is done, the final admission is confirmed. Due to this very fact, despite being talented, hardworking and committed to their studies, these students are not able to perform appreciably in their respective programs of study at Jamia Hamdard. To take care of this aspect, Jamia Hamdard may conduct an 'English Language Foundation Course' and students may be charged an additional fee for this course.

## LIBRARY

The University library is among the oldest academic institutions established by the great Visionary late Chancellor Hakeem Abdul Hameed Sb. (1908-1999) in 1977 at the Tughlakabad Campus of the upcoming university. The Central library is housed in a multi-tiered round building famous for its architectural design and beautiful landscaping. It was renamed in 1992 as the Hakeem Mohammed Said Central library (acronym HMSCL) on the name of the younger brother of the founder. The Jamia Hamdard Library System consists of the HMS Central library and a number of School libraries, such as School of Pharmacy library, School of Nursing library, School of *Unani* medicine library, HIMSR library, School of Humanities and Social sciences library, etc. holding good number of Books.

### Library computerization

The library has undertaken the computerization of its house-keeping activities based on the popular propriety ILMS Libsys web opec software since 2004. Keeping in view the nature of the collection which consist of a large number of non-European printed materials, bibliographic databases in Unicode complaint standard have been developed Now, a variety of bibliographic databases, such as database for printed books, theses and CD-ROMs are available in English, Urdu, Hindi, Persian and Arabic languages. These various databases are available to be accessed throughout the campus and beyond in 24x7 format on the Intranet and Internet topography. All library members are provided bar-coded library IDs with category specific privileges for borrowing materials from any issue counter within the library system.

The RFID based circulation system has been introduced in the HMS Central library from the current academic session which is integrated with the already running Libsys software. This new technology will facilitate library users to check-out and check-in of library materials by themselves and save their time. The library will also benefit as this system will provide a protection against theft as well as wilful misplacement of books, etc. The library is also working for introducing the fingerprints access control system in the Central library to facilitate real-time record of footfalls in the library. Currently, batch-wise fingerprints of students are being obtained in the library.

Most of these archival activities are undertaken with technical and financial supports from various government agencies, such as National Mission for Manuscripts (NMM) and National Archives of India (NAI).

Under the grants received from the National Archives of India (NAI), the library has been able to create important assets, such as installation of fumigation chambers, dehumidifiers, air-conditioners in the Manuscript division besides undertaking lamination and archival binding of hundreds of deteriorated manuscripts which have given them fresh life as well as made their consultation easier.

Moreover, hundreds of depilated rare books which could be not handled by naked hands have been given fresh life for posterity through digitization and archival binding under the NAI projects. The National Mission for Manuscripts (NMM), an another specialized body under the Ministry of culture devoted to resurrection of old Indian arts and manuscripts has been engaged to digitize the majority of manuscript collection.

Handsome grants have been received through the UGC on the recommendation of the Inflibnet for the purpose of (i) uploading the back-files of Ph.D. theses to the Shodhganga ETD repository; (ii) purchasing of over-head scanner and server for setting-up the in-house ETD laboratory to support ongoing digitization activities.
